

## Honeybee Centre announces new Beekeeping Warehouse

May '07

For those of you who drive past Honeybee Centre often, you may have noticed some action going on in our back lot. Always looking to expand our horizons and sense of personal space, Honeybee Centre is very excited to announce the impending completion of our honey warehouse! Designed to match our landmark red-roofed barn, the newest addition to HBC's headquarters is going to offer us ample space for storage of our most beloved belongings – including honey.

Founded in 2000, Honeybee Centre is growing by leaps and bounds each year. From a humble trailer on Fry's Corner to the empire you see today, we are always looking for opportunities to become bigger and better and provide the public with more bee-related services. Stay tuned for more developments!
